Class Task 2.1.1 – Simple queries

- All of these queries relate to the supplied database 2.1 Customer Order Database.
- For each question, you will create and save the query using the supplied name.
- You will screenshot the query design window, clearly showing all the columns you have selected along with any query criteria and the query name.
- You will screenshot the query results, clearly showing all the column headings and all the results.
- Make sure all query columns are formatted correctly.
- **Time allowed: 35 minutes.**
